On the Subject of Timezones

Nobody likes to convert timezones.

- The time displayed by the analog clock can be PM or AM
- The time conversion can be requested in 12h or 24h format

1. Check the city and the time of the analog clock.
2. Convert the time of the analog clock to the requested city.
3. Press the buttons to introduce the time conversion result. Remember to check which lights are on!
4. Press the SUBMIT button.
